

There's some do's and do not's for your new Jacuzzi product that was just installed that you **MUST** follow!

**Do not** use your new bath or shower for **at least 24 hours** after installation.

**Do not** even use the recommended cleaning products for **at least 1 week** after installation.

**Do not** ever use abrasive cleaners, such as Soft Scrub, Comet, Scratch Free, cleaning powder or scouring pads.

**Do not** use any products with Ammonia-D or acetone (nail polish remover), any products using aerosol propellant, products with harsh chemicals such as Lysol Disinfectant, Dow Disinfectant and Lestoil, Crystal drain cleaner or any leave on products.

To test for abrasive agents, rub a small amount between your fingers... if it is rough, it will scratch your acrylic system.
